

DAYTON AIRLESS TIRES

Puncture Proof
Absolute protection from punctures and blow-outs is secured through the unique construction of these tires.

EASY RIDING
The pliers of five new rubber absorb all the jolts and jars of rough roads. They won't bounce your car to pieces like a tight pneumatic nor drag like an under-inflated pneumatic.

LONG SERVICE
The Dayton Airless written guarantee for Ford cars is eight thousand miles. But on heavy cars five thousand miles. But users get from ten to twenty-five thousand on all kinds of roads and in all sorts of weather. Making them the most economical tire.

The cost per mile is trifling and you feel for the first time the satisfaction of knowing that your tires won't fail.

Write at once for full information, prices, and our special offer. State the size of tires you are using. Use coupon.

MODELS IN MOVIE

Free Fair Pictures Will Depict Farm Buildings.

Practical Display Includes Many Hints to Farmers.

EXHIBIT WILL BE COMPLETE

Brought Here by National Lumber Makers' Association.

Every Kind of Commercial Timber Will Be Shown.

Persons who attend the big free state fair in Topeka next month will see the most comprehensive lumber exhibit ever shown in the United States. That statement is made upon authority of the National Lumber Manufacturers' association, which will place the exhibit. The display will consist of a complete set of model farm buildings, arranged in model farm manner.

The display will show a model barn, hog house, poultry house, etc., implemented with a second and there will be scores of different views. The slides will include models of farm buildings, showing interiors and complete farms, and many slides will give statistics and hints upon the best methods of using wood. However, on these slides the

BELL-ANS
Absolutely Removes Indigestion. One package proves it. 25c at all druggists.

farmers will be urged to use wood only where it is best. They will not be urged to use it in places where other materials are by nature better fitted for the purpose.

Another unique feature of the display will be a screen of panels showing a block of every commercial wood in the United States. The wood will be shown in the rough and in finished shape. Panels will also be shown giving the literature of all the lumber associations affiliated with the national organization.

The display will be of a more general type than any previous lumber exhibit ever gathered together. Farmers' wives are expected to be interested in the display but even if they are not they will benefit by visiting it. The association will give each farm wife a small wooden utensil known as a kitchen tong as a souvenir of the exhibit.

The National Lumber Manufacturers' association has headquarters in Chicago. It is composed of most of the big lumber companies of the country. It is sending the exhibit to the big free Kansas fair without solicitation.

FLEES IN NIGHTGOWN

Mrs. Vanderbilt on French War Front Under Bombardment.

Paris, Aug. 26.—How a German shell sent Mrs. William K. Vanderbilt fleeing in her nightgown with her hair down her back and a pair of loose slippers flapping over her bare feet, was related today by officers of the American ambulance who accompanied her on a tour of the French front. Mrs. Vanderbilt told French officers escorting the party that she "hoped to hear the cannon." She got her wish. One night while the party was sleeping at Pont-a-Mousson, the Germans opened a heavy bombardment that wrecked several nearby houses and sent the party rushing into a reinforced cave. Mrs. Vanderbilt had time only to throw a loose wrapper over her nightgown as she ran downstairs.

At another place she approached so near the trenches that a French soldier warned her that one of his comrades had been killed near the spot where she was standing only five minutes before.

Mrs. Vanderbilt paid a visit to Verdun and was the first American woman to enter the city since the Germans began their attack.

CHESNEY WON OUT

Wall Scaling Event at Garfield Park Final of Season.

The wall scaling contest at the playground picnic at Garfield park Friday was the final athletic event of the playground season. It was won by the team from Chesney park.

The team consists of Wendell Hill, Pete Pears, Perryman Dodge, Dale Ferine, George Carls, "Bill" Boyd, Galen Short, Louis Hill, Albert Cole, Robert Allen, Bud Turner, Galen Martin.

Last year Ripley park had the championship team.

WANT AGENT HERE

Immigration Plan for Kansas Approved by Capper.

Would Build Up Rural Population of State.

BILL IN THE LEGISLATURE

Model Measure After Policy of California.

Mohler Has Plans for Drafting the Measure.

Efforts of the Topeka Commercial Club to obtain legislation creating a Kansas immigration agent for the purpose of regaining the loss of the state in rural population is looked upon with approval by Governor Capper, according to a statement made today by J. Will Kelley, secretary of the Topeka Commercial Club. J. C. Mohler, secretary of the state board of agriculture, and chairman of the immigration committee of the Commercial Club, has under consideration the drafting of an immigration bill.

Mr. Kelley announced today that this bill will be presented to a house member and a senate member from Shawnee county at the next session of the legislature. Representatives from the Commercial Club called upon the committee of immigration and outlined the immigration agent plan. At that time Governor Capper had not been converted to the idea.

"Since Governor Capper returned from California he believes the immigration agent plan a good one," said Mr. Kelley. "There he discovered that the thousands at the exposition couldn't learn anything about Kansas resources excepting thru a few exhibits."

The plan is to pass a bill establishing an immigration department for the purpose of distributing literature to immigrants wishing to start on farms. At the same time the immigration agent would endeavor to obtain cooperation from large land owners in making provisions of their land so the immigrants could be given good opportunities to establish themselves as American farmers in Kansas.

The application stated the road would have outstanding on July 2, 1917, in addition to those today, obligations totalling \$321,674.886.

GRANT THE FRISCO PETITION.

Public Service Board Permits Big Bond Issue by Railroad.

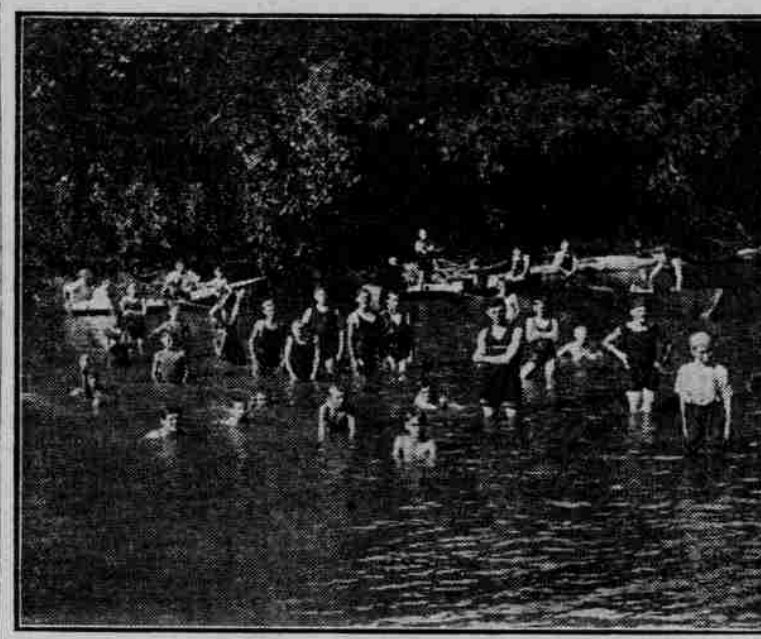

Jefferson City, Aug. 26.—The state public service corporation, upon application by the road officials, granted authority here today for the St. Louis & San Francisco Railroad company to issue bonds totalling \$194,138,316, preferred stock to the amount of \$9,452,026 and common stock aggregating \$48,000,000.

The application stated the road would have outstanding on July 2, 1917, in addition to those today, obligations totalling \$321,674.886.

Reading the State Journal at the Little Brothers' Camp.

Swimmin' Time at Little Brothers' Camp.

FOR GOOD TIMES

Real Boyhood Scenes From Little Brothers' Camp.

Big Brothers Are Pleased Over Their Aid in Outing.

The three pictures show three typical "good time moments" in the Little Brothers' camp held recently by the Y. M. C. A. One is "swimmin' time," another snapped a Little Brother in the ineffable moment of landing a big fish and the third shows the Little Brothers enjoying "Mutt and Jeff," "Bringing Up Father" and the comic supplement of a Saturday evening State Journal.

Copyright by Paul Harrison.
"Days of Real Sport."

Christmas will have to go some to efface the memory of the "Little Brothers' camp" from the memory of fifty Topeka "kids," who but for the camp would have been doomed to spend the hot summer in the city.

The camp will also persist in the memory of some forty Topeka business men, the "Big Brothers" of the camp.

of the "Little Brothers" wrote a letter of thanks to his particular "Big Brother." One Topeka man, whose subscription was large, received five letters. "And I wouldn't trade them for a farm," he declares.

The Little Brothers' camp is an annual institution of the Central Y. M. C. A., established by George Hoyes some five years ago. This year fifty boys were sent out to enjoy life. Next year the Y. M. C. A. declares they are going to send one hundred boys to the camp.

PUT GERMS IN BRUSHES

London Express Claims Germans Tried to Start Anthrax in England.

London, Aug. 26.—Anthrax infected shaving brushes have been added to the German program of frightfulness.

Hudson Super Six
Now Holds World's Greatest Hill Climbing Record
Makes Fastest Time Up Pikes Peak

The start, at a mile and three-quarters above the sea, is higher by far than is the altitude of the finishing line in most hill-climbs.

The finishing point of Pike's Peak is almost two and three-quarters miles above sea level. In the twelve and a fraction miles of the course there are 60 turns, and the rise is almost one mile high. There is no place where the car is not climbing.

The high altitude affects the power efficiency of the motor and water boils at such low temperature that motors cannot be cooled as they are in lower level.

Hudson Fastest Time

The Hudson climbed up this winding steep road to the "Top of the World" in 18 minutes, 24 seconds. Its time was 2 1/2 minutes faster than the next fastest car.

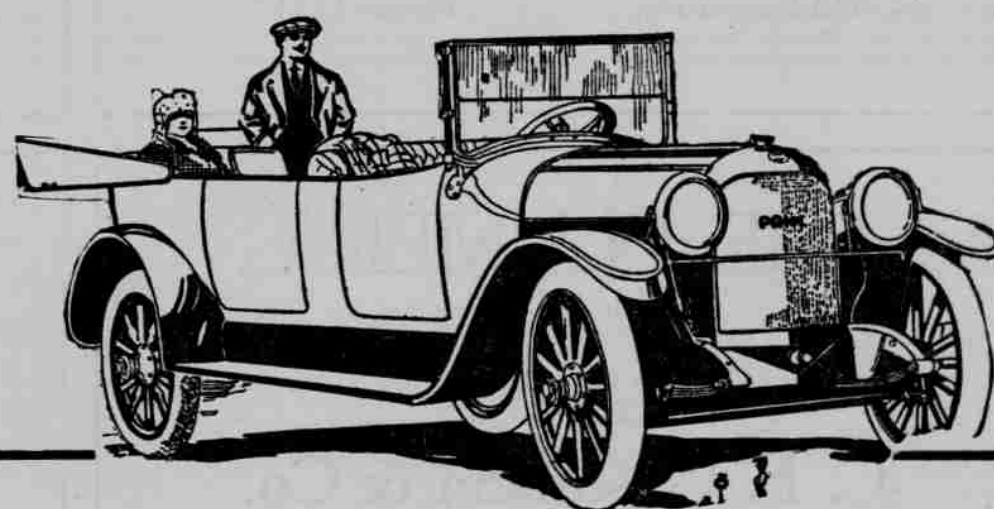

This feat now gives to Hudson practically every worthwhile record. In speed—when 102.3 miles an hour was attained in Daytona; in endurance—when 1,819 miles were covered in 24 hours, with a stock Super-Six chassis we established marks not likely soon to be equaled.

\$1375 f. o. b. Detroit

NEW SERIES FLEETWOOD
"SIX-38" FIVE PASSENGER
\$1090 f. o. b. Detroit

PAIGE

"The Standard of Value and Quality"

At a cost of \$1375, the New Series Paige Fairfield offers—

1. The most distinctively beautiful seven passenger body design in America.
2. The most efficient six-cylinder power plant and chassis that automobile engineering has ever developed.
3. The most complete equipment of accessories that can be found on any car—at any price.
4. A speed range of from two to sixty miles an hour on high gear, and ability to climb any grade that will offer traction to the four wheels.
5. A car that is made by one of the strongest corporations in the industry. A car that is backed by a Nation Wide Service Organization that cannot be surpassed.

These, very briefly, are the major advantages of Paige ownership. As a business proposition, do you know of any way that you could secure greater dollar for dollar value?

Six "Vims"

For Delivery Service in
TOPEKA'S BIGGEST STORES

Sold by

Rehkopf Bros.

212-14 West 6th Street
Topeka, Kan.

A Vim for Your Service

BUILT FOR WORK

That's the basis of the universal success of the VIM—it's built to work and it does work.

There is no "may-be" about a VIM. It has proven itself by solid, substantial performance.

It will save you money—it will save you time—it will help to hold present customers—it will increase your trade—it will lift your business on to a high-class plane that will "speed-up" your entire organization.

The Crosby Bros. Company and the Pelletier Stores Company, feeling the need of modern delivery service placed orders with Rehkopf Brothers for three Vims each. The bodies of the cars are of special enclosed designs, lettered in gold. Most of the cars have been delivered and are now in service.

One of the big automobile deals of the city was completed when two of the leading mercantile establishments of Topeka and Kansas each placed orders for a fleet of "VIM" delivery cars, this after careful examination and demonstration of all the trucks in the field.
